## Richmond Branch Library beginning to take shape

As construction progresses on the new Richmond Avenue School, the Atlantic City Free Public Library moves closer to offering an expanded branch at its familiar Ventnor and Windsor avenue location.

Just as it did at the old Richmond Avenue School, which was demolished in 2009, the Atlantic City Library will offer a Richmond Branch Library at the new school.

The new Richmond Branch Library will be 3,000 square feet, approximately five times larger than the old Richmond Branch.

The steel beams for the new school are in place, and construction is scheduled to

be completed this winter, according to construction manager Joseph L. George.

The Atlantic City Library Express, which was created to serve as a temporary location until the new Richmond Branch Library opens, will close later this year.

Library Director Maureen Sherr Frank described the Atlantic City Library Express as a “wonderful experience.”

“We have learned a lot since opening that location,” she said. “We have experimented with a new look and floor plan at Library Express — and those are things that will serve us well as we plan our Richmond Branch Li-

looking forward to offering the same type of experience for customers at the new Richmond Branch Library.”

## Archivist shares HBO 'Empire' experience

When researchers for the smash HBO series "Boardwalk Empire" have historical questions about Atlantic City, one of the places they come for answers is the Atlantic City Free Public Library.

The person on the receiving end of those inquiries is the library's archivist, Heather Halpin Perez.

Perez was one of three featured speakers at a special program, the Seventh annual "Americana: Living Archives: Bringing the Past to the Present" held March 7 at the University of Maryland, College Park. Perez is a Maryland alumna.

She spoke to students, faculty and the archival community about the use of archives to create the atmosphere in Boardwalk Empire. She
